

Power Generation Engine Series

This engine series is designed for power generation and industrial applications. It delivers reliable performance and durability.

Product Overview

Industrial Power Generation Solutions

This industrial engine series offers world-class performance and reliability for diverse power generation applications. Designed for professional use, these engines adhere to stringent quality and safety standards to ensure operational efficiency. The series supports various configurations, including standard units, automated systems, unattended stations, and silent canopy-enclosed generators.

Technical Specifications

Available Engine Models

- TAD530GE/531GE/532GE
- TAD730GE/731GE/732GE/733GE/734GE
- TAD1341GE/1342GE/1343GE/1344GE/1345GE
- TAD1640GE/1641GE/1642GE/1643GE/1645GE
- TAD550GE/551GE
- TAD750GE/751GE/752GE/753GE/754GE
- TAD1350GE/1351GE/1352GE/1353GE/1354GE/1355GE
- TAD1650GE/1651GE/1652GE/1653GE

Emission Certification

Tier 2, Tier 3

Application Support

Compatible Generator Types

- Standard Generator Units
- Automated Generator Systems
- Unattended Power Stations
- Trailer-mounted Power Plants
- Silent Canopy Enclosed Units
- Marine Power Systems
- Natural Gas Generator Sets
- Biogas Generator Sets

Maintenance and Service

Maintenance Services

Full Maintenance • Engine Repair • Preventive Care • Original Parts Supply
