

Power Sander Sanding Sheets

Assorted sanding sheets are designed for use with power sanders. The sheets are suitable for various sanding applications on wood, metal, and plastic.

Product Overview

Professional Sanding Solution

These assorted sanding sheets are precision-engineered for compatibility with various power sanders. The selection includes both rectangular sheets for surface coverage and delta-shaped sheets specifically designed for intricate detail work. Featuring pre-punched holes for integrated dust extraction, these sheets offer superior performance when sanding wood, metal, and plastic surfaces.
