Product Overview

Professional Power Distribution

This versatile power strip is designed for efficient power distribution in home and office environments. Equipped with multiple AC socket-outlets and integrated USB charging capabilities, it provides a centralized solution for powering equipment and charging mobile devices simultaneously. The unit features built-in safety shutters and is engineered for reliable operation with high-capacity loads.

Electrical Specifications

Rated Current	16 A
Rated Voltage	230V~
Maximum Power	3680 W

Connection and Ports

Socket Count

4-Way • 6-Way

USB Output Capabilities

Voltage	Current
5V	3.4A
9V	2A
12V	1.5A

Design and Safety

Cable Specification	H05VV-F 3G1.5mm ² (1.4m)
Core Features	Safety Shutters, Illuminated Switch, Type A Port, Type C Port, Surge Protection Ready
