

Power Tiller Cultivator

This power tiller cultivator is a robust machine designed for soil preparation in agriculture. With adjustable tilling width and depth, it offers versatile use across different farming applications.

Overview

Robust Power Tiller Cultivator

This power tiller cultivator is a robust and efficient machine engineered for soil preparation and agricultural cultivation. It features a powerful 4KW engine capable of handling various soil types and terrains with ease. Designed for durability and performance, the unit offers adjustable tilling capabilities and ergonomic controls, making it a reliable solution for demanding agricultural tasks.

Engine Specifications

Rated Power

4 KW

Power

5.4 HP

Horsepower

Engine Configuration

- Single-cylinder
- Forced air cooling
- Vertical
- 4-stroke
- Direct injection

Engine Model	YH178F
Displacement	296 ml
Bore x Stroke	78x62 mm

Performance

Tilling Scope & Depth

Metric	Value
Tilling Scope	1050 mm
Tilling Depth	100 mm

Driving System	Gear
Gear Shift Pattern	-1, 0, 1, 2
Operating Frequency	60 Hz
Rated Speed	3600 rpm

Physical Dimensions

Machine Dimensions	1700 x 1050 x 800 mm
Packing Size	1095 x 565 x 880 mm
Weight (N.W/G.W)	105kg / 115kg

Logistics

Container Load (20GP)	40 units
