Overview

Versatile Soil Preparation Solution

This power tiller is a robust agricultural machine engineered for efficient soil cultivation, tilling, and seedbed preparation. Featuring a high-performance diesel engine and adjustable tines, it offers the flexibility needed for various soil types and depths. Its compact, maneuverable design makes it an ideal choice for small to medium-sized farms, landscaping, and construction applications where space is limited.

Technical Specifications

Engine Power

12 HP

Min Power

15 HP

Max Power

Engine Type

Diesel, Direct Injection

Key Features

Adjustable Tines, Differential Axle, Depth Control, Track Drives

Safety & Operation

Safety Mechanisms

- Protective guards
- Emergency shut-off mechanism
- Easily accessible service points

Applications

Suitable Applications

Small-scale farming • Landscaping • Construction • Seedbed preparation
