

Precision Injection Molded Washers

These high-precision injection molded washers are designed for various engineering applications. They are manufactured to tight tolerances, which ensures consistent performance and reliability.

Product Overview

Precision Injection Molded Washers

These high-precision injection molded washers are engineered for demanding industrial applications requiring consistent performance and reliability. Manufactured to tight dimensional tolerances, they provide exceptional accuracy for engineering projects. They are available in a variety of sizes and materials to ensure compatibility with specific technical requirements.

Manufacturing Details

Production Method	Injection Molding
Manufacturing Characteristics	High-Precision, Tight Tolerances, Dimensional Accuracy

Application

Primary Applications

- Foreign Engineering Contracting
- General Engineering Projects
- High-Reliability Industrial Assemblies
