

Precision Nozzle for GXH Machinery

This precision-engineered nozzle is designed for use with GXH-1 and GXH-3 machinery. Constructed from durable materials, it ensures longevity and consistent performance in demanding industrial applications.

Product Overview

Precision Nozzles for GXH Machinery

These precision-engineered nozzles are designed specifically for compatibility with GXH-1 and GXH-3 machinery. They are critical components for accurate material handling and dispensing in industrial SMT assembly environments. Built from durable, high-quality materials, these nozzles ensure consistent performance, longevity, and reliable flow control in high-precision automated applications.

Compatibility

Compatible Equipment

GXH-1, GXH-3, Sigma-G4, Sigma-G5

Available Models

Nozzle Part Numbers and Specifications

Part Number	Model ID	Dimensions/Notes
630 128 4842	HA01	0.7x0.4/ø0.25 (for 0603)
630 132 2322	PV01	1.1x0.6/ø0.38 (for 1005)
630 132 9857	PV02	1.7x0.9/ø0.65 (for 1608)
630 129 2892	HV03	ø1.3/ø0.9 (for 2012)
630 129 2922	HA04	ø1.8/ø1.2 (for 3216)
630 129 2939	HA05	ø3.0/ø2.0
630 129 2946	HA09	ø6.0/ø4.5
630 152 8267	HV31	ø0.7x0.4/ø0.2
630 152 8472	HV51	ø0.6/ø0.4
630 158 9084	HV81	ø1.7x0.9/ø0.7
