

Precision Sliding Table Saw for Woodworking

This precision sliding table saw is designed for accurate and efficient wood processing. It features a robust sliding table mechanism that ensures high-quality results in various woodworking applications.

Overview

Precision Sliding Table Saw

The MJ6130TZ is a precision sliding table saw engineered for accurate and efficient wood processing. Designed for both small workshops and industrial settings, it features a robust sliding table mechanism that ensures smooth, high-quality cuts. With adjustable blade height and angle, combined with sturdy construction, this machine provides the versatility and durability required for professional woodworking applications.

Technical Specifications

Model Number	MJ6130TZ
Key Features	Precision Sliding Table, Adjustable Blade Height, Adjustable Blade Angle, Heavy-Duty Construction

Safety & Compliance

Safety Equipment

- Integrated Blade Guards
- Emergency Stop Button
