Product Overview

Professional Computing Platform Scale

Designed for heavy-duty commercial environments, this price-computing platform scale features a robust stainless steel construction. It is engineered to perform reliably in demanding settings such as wet or dusty areas. Equipped with a waterproof keyboard and high-precision strain gauge technology, it ensures rapid and accurate weight measurement and transaction calculations.

Technical Specifications

Display Graduation

- 50g
- 100g

Weight Capacity Options

100kg, 150kg, 200kg, 300kg

Power Supply

DC6V / 500mA adapter

Performance Features

Key Performance Indicators

2 count

LCD Displays

Key Features

Waterproof Keyboard • Stainless Steel Construction • Backlight Display • High-Precision Strain Gauge
