

Professional Hair Straightening Iron with Adjustable Heat

This professional hair straightener is designed for versatile styling. It features rapid heating, adjustable temperature settings, and ceramic-coated plates for smooth gliding.

Overview

Professional Styling Performance

This professional hair straightening iron is designed for versatile styling, combining rapid heating technology with ceramic-coated floating plates for a smooth, damage-reducing glide. Engineered for efficiency, it reaches working temperatures in just 30 seconds, making it ideal for busy salon environments or home use. With safety features like automatic shut-off and a 360-degree swivel cord, this tool offers both reliability and ease of use for achieving sleek, straight styles or waves.
