

Programmable Coffee Maker with Integrated Grinder

This coffee maker features an integrated grinder for freshly ground coffee. It is equipped with a programmable timer and LCD display for precise control.

Overview

Fresh Brewing Experience

This programmable coffee maker features an integrated grinder, allowing you to enjoy the freshest coffee by grinding beans immediately before brewing. With its 1.0L capacity, it is capable of serving 8-10 cups, making it ideal for home or office use. The microcomputer control and intuitive LCD display provide precise management of your brewing settings, including a 24-hour timer for convenience.
