

Purple Electrical Connector with Prongs

This is a purple electrical connector designed for secure connections. It features a cubic body with cylindrical extensions and prongs.

Product Overview

Professional Electrical Connector

This purple-colored electrical component features a robust cubic body design with multiple cylindrical extensions for versatile connectivity. Equipped with dual prongs, it is engineered for secure integration into electrical systems or appliances. Its durable construction and distinct port layout make it a reliable choice for specialized electrical applications requiring a compact, multi-directional interface.

Physical Characteristics

Interface Features

- Cylindrical ports on multiple sides
- Dual prong terminal
- Rectangular central opening

Color	Purple
Body Shape	Cubic
Connector Type	Multi-port, Pronged
