

Push Button Switch - Large Actuator, Momentary Action

This push button switch features a large, easily accessible actuator for quick operation. It is designed for controlling circuits with AC voltage up to 660V and DC voltage below 400V.

Overview

Industrial Push Button Switch

This large actuator momentary push button switch is designed for reliable control in demanding electrical environments. Featuring a robust construction with zinc alloy and high-grade anti-flam plastic, it ensures durability and safety. The switch is engineered for quick, decisive action, making it an ideal choice for control panels, machinery, and emergency signal applications.

Certifications & Standards

Compliance & Certifications CE, ISO 9001, RoHS, UL, GB/T14048.1, IEC60947-5-1

Electrical Ratings

Rated Insulation Voltage (AC)	600 V
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d25n©

Technical Specifications

Construction Materials

- Zinc alloy main body
- High-grade anti-flam plastic
- Silver alloy contacts

Application Compatibility

- AC Voltage up to 660V (50Hz/60Hz)
- DC Voltage below 400V
- Signal control and interlocking
