

Push Fit Ball Valve

This 3/4 inch push-fit ball valve is engineered for swift connections to copper, CPVC, and PEX tubing. The valve features a durable brass body, a full-port design to ensure maximum flow, and a quarter-turn handle that facilitates on/off control.

Product Overview

Professional Push Fit Ball Valve

This high-quality push-fit ball valve is engineered for efficiency and reliability in plumbing systems. Constructed from lead-free DZR brass, it provides a safe and durable solution for fluid control. Designed for versatile compatibility, it connects seamlessly with copper, CPVC, and PEX tubing, making it an ideal choice for quick installation.

Technical Specifications

Maximum Pressure

200 PSI
Max Pressure

Compatible Tubing

- Copper
- CPVC
- PEX

Material Composition

Lead-free DZR Brass

Valve Size

3/4 inch

Operational Features

Port Design

Full-port

Operation

Quarter-turn handle
