

PVC with NBR Car Floor Mats

Durable and waterproof PVC with NBR car floor mats are designed to protect vehicle interiors from dirt and spills. These mats feature a non-slip backing to ensure they stay in place, providing added safety and convenience.

Product Overview

Premium PVC & NBR Floor Protection

These high-quality car floor mats are engineered from a durable blend of PVC and NBR materials to provide superior interior protection. Designed to withstand all weather conditions, they effectively trap dirt, debris, and spills while maintaining a clean appearance. The integrated non-slip backing ensures maximum safety and stability during operation, offering a practical solution for vehicle maintenance.

Material & Construction

Material Composition	PVC, NBR
Surface Finish	Textured debris-trapping surface

Performance Features

Key Benefits

- Waterproof construction
- Non-slip backing for safety
- Easy to clean and maintain
- All-weather durability
- Quick installation and removal

Compatibility

Fitment	Universal custom-fit design for a wide range of vehicle models
