

Quarter-Turn Shutoff Ball Valve with Hose Barb

This ball valve is designed for reliable shutoff control in various fluid applications. It features a durable metal body, providing corrosion resistance and long-lasting performance.

Product Overview

Reliable Flow Control Solution

This quarter-turn shutoff ball valve is engineered for efficient and reliable fluid control in industrial and commercial applications. Featuring a durable metal body, it offers excellent corrosion resistance and longevity. The intuitive blue lever handle enables quick, easy on/off operation, while the hybrid design—combining a threaded inlet with a hose barb outlet—ensures secure and versatile connectivity for flexible tubing.

Technical Specifications

Operation	Quarter-Turn
Handle Style	Lever Handle
Compatible Media	Water, Air, Compatible Fluids

Design & Construction

Connection Types

- Threaded Inlet
- Hose Barb Outlet

Handle Color

Blue

Body Material

Durable Metal (Brass/Stainless Steel)
