

Quartz Infrared Space Heater

This space heater is designed to provide efficient and targeted heating for small to medium-sized rooms. It utilizes quartz infrared technology and features multiple heat settings, a tip-over switch, and overheat protection.

Overview

Efficient Targeted Heating

The Quartz Infrared Space Heater is designed to provide efficient and targeted heating for small to medium-sized rooms. It utilizes advanced quartz infrared technology to deliver instant warmth without drying out the air, ensuring a comfortable environment. With a compact and portable design, this heater is easily moved between spaces to provide warmth exactly where it is needed.
