

R134a 90-Degree Quick Coupler Set

This R134A air conditioning fast connector allows connection of multiple hoses. It is designed for use in the automotive industry with R134a systems.

Product Overview

Professional R134a Quick Coupler Set

This 90-degree quick coupler set is engineered for efficient service and maintenance of R134a refrigerant systems. Designed for professional use, the set features a robust construction utilizing copper and aluminum materials to ensure long-lasting durability. The quick-connect mechanism allows for rapid attachment and removal, streamlining the workflow for HVAC and automotive technicians.

Technical Specifications

Refrigerant Compatibility

R134a

Connector Angle

90-Degree

Connection Size

1/4" SAE M14*1.5

Materials & Construction

Materials

Copper, Aluminum
