

# R134a Refrigerant Quick Coupler Set

This R134a quick coupler set is designed for automotive air conditioning systems. It includes high and low side couplers with color-coded caps for easy identification.

## Product Overview

### Professional R134a/R1234yf Adapters

This quick coupler set is engineered for professional automotive air conditioning maintenance and repair. Featuring a 90-degree angle design and durable metal construction, it provides reliable connections for R1234yf refrigerant systems. These high and low side adapters ensure secure operation and efficient service for HVAC&R technicians and mechanics.

## Technical Specifications

### Material

- Copper
- Aluminum

### Refrigerant Compatibility

R134a, R1234yf

### Connector Type

90° Angle 1/4" SAE M12\*1.5

## Key Features

### System Indicators

Color-coded • High Side • Low Side
