

R410A R22 9000-14000 BTU Air Conditioner Indoor Unit

This indoor air conditioning unit is compatible with both R410A and R22 refrigerants. It supports ON/OFF and DC Inverter technologies and has a cooling capacity ranging from 9000 BTU to 14000 BTU.

Overview

High-Efficiency Indoor Unit

This indoor air conditioning unit is designed for versatile performance, supporting cooling capacities ranging from 9000 to 14000 BTU. It offers compatibility with both R410A and R22 refrigerants and integrates seamlessly with both ON/OFF and DC Inverter system technologies. With a wall-mounted design, it features adjustable temperature settings, multiple fan speeds, and an effective swing function for optimal air distribution.

Technical Specifications

Cooling Capacity

9000 BTU

Minimum Capacity

14000 BTU

Maximum Capacity

Technology Type

ON/OFF • DC Inverter

Refrigerant Compatibility

R410A, R22

Features

Operational Functions

- Adjustable temperature settings
- Multiple fan speeds
- Swing function for even distribution
- Operational status indicator lights
- Wall-mounted installation
