

# R410A R22 Dual ON/OFF DC Inverter Air Conditioner

This air conditioner is compatible with both R410A and R22 refrigerants and features double ON/OFF and DC inverter technology. It provides efficient cooling and heating for residential and commercial environments.

## Product Overview

### Versatile Climate Control Solution

This dual-capability climate control system supports both R410A and R22 refrigerants, offering flexibility for varied installation needs. The series includes both standard ON/OFF and high-efficiency DC Inverter models to suit different budget and performance requirements. With a diverse range including wall-mounted, ceiling cassette, and ducted units, it provides robust heating and cooling solutions for both residential and commercial environments.

## Technical Specifications

### Compressor Technology

ON/OFF • DC Inverter

### Refrigerant Compatibility

R410A, R22

## Configuration Options

### Available Unit Designs

- Wall-mounted
- Ceiling cassette
- Ducted units

### Primary Applications

Residential, Commercial
