

Radiant Halogen Space Heater

This halogen heater provides radiant heat for indoor spaces. It features a protective metal grid and safety features like a tip-over switch.

Product Overview

Efficient Radiant Heating

This radiant halogen space heater provides immediate, targeted warmth through high-efficiency halogen lamps. Designed for indoor environments, its compact footprint allows for easy placement in offices, bedrooms, or living spaces. The unit combines a durable white frame with essential safety features, ensuring reliable operation for personal comfort.
