

Range Hood Motor

This motor is designed for range hoods. It operates at DC220V, 0.3-0.7A, with a rated power of 30-80W and a speed of 1050-1250 RPM.

Overview

High-Performance Range Hood Motor

The YPY-94 range hood motor is engineered for reliable performance in ventilation applications. Designed with an insulation class B and IP44 protection, it ensures durability and safety in kitchen environments. This versatile unit offers adjustable power and speed settings to meet specific airflow requirements.

Electrical Specifications

Input Voltage	DC220V
Current Range	0.3 - 0.7 A
