

Rear Bumper Assembly

This rear bumper assembly is designed for the L200 19 model. It features a multi-tone finish and durable construction for impact resistance and vehicle protection.

Product Overview

Rear Bumper Assembly for L200 19

This rear bumper assembly is specifically engineered for the L200 19 model, offering a precise fit and reliable performance. Featuring a sophisticated multi-tone design with silver end caps, a durable black central section, and a lower white accent piece, it enhances both the aesthetics and utility of the vehicle. Built from high-quality, impact-resistant materials, this assembly provides essential protection while serving as a functional upgrade for your vehicle's rear end.
