

Rechargeable 280-Degree Emergency Lantern

This rechargeable emergency lantern is designed for both indoor and outdoor use. It features a transparent cylindrical housing and emits a 280-degree view of light.

Product Overview

High-Efficiency Emergency Lighting

The TK-2349 rechargeable emergency lantern provides reliable illumination with a 280-degree beam angle, making it an ideal choice for both indoor and outdoor safety requirements. Equipped with a 6V 4AH battery and a 9W fluorescent tube, this unit ensures consistent lighting during power outages. It features integrated overcharge protection and a robust design with a convenient carrying handle, ensuring longevity and ease of use in critical situations.
