

Rechargeable Battery and Charger Set

This set includes both rechargeable batteries and a charger. The batteries are designed for long life and consistent performance, while the charger provides rapid charging and prevents overcharging.

Product Overview

High-Performance Power Solution

This rechargeable battery and charger set is engineered for long-lasting power and reliable, consistent performance across a wide range of electronic devices. The included charger features advanced technology to support rapid charging while integrating critical safety mechanisms to prevent overcharging and overheating. Designed for professional and everyday use, this set ensures your equipment stays powered when you need it most.

Technical Specifications

Nominal Voltage

1.5 V

Voltage

Product Type

Rechargeable, Battery Set, Rapid Charger

Safety & Features

Safety Protections

- Overcharge Protection
- Overheat Protection
- Rapid Charging Technology
