

Rechargeable COB LED Work Light with Magnetic Base

This work light features a high-intensity COB LED for bright and uniform illumination. Its rugged construction, magnetic base, and pivoting stand allow for hands-free operation and flexible positioning.

Overview

Professional Versatile Lighting

This rechargeable COB LED work light is engineered for demanding industrial and professional environments. It features multiple lighting modes, including a high-intensity COB LED and a focused top LED, providing flexible illumination for various tasks. With a robust 6000mAh battery and convenient hands-free features like a magnetic base and swivel stand, it ensures reliable performance and ease of use on any job site.
