

Rechargeable Lithium-Ion Polymer Battery

Rechargeable lithium-ion polymer battery suitable for various electronic devices. It has a rated capacity of 1600mAh and a nominal voltage of 3.84V.

Product Overview

High-Performance Lithium-Ion Polymer Battery

This rechargeable lithium-ion polymer battery is engineered to provide reliable power for a wide range of electronic devices. It features robust built-in safety mechanisms, including protection against overcharging, over-discharging, and short circuits, ensuring operational safety. With clear regulatory compliance markings, this unit is designed to meet professional standards for quality and performance.

Technical Specifications

Rated Capacity

1600 mAh
Rated Capacity

Nominal Voltage

3.84 V

Compliance & Safety

Safety Features

- Overcharge protection
- Over-discharge protection
- Short circuit protection

Certifications

CE, UL
