

Rechargeable Sonic Electric Toothbrush with Timer

This sonic electric toothbrush is designed for effective and gentle cleaning. It utilizes high-frequency vibration and soft bristles to remove plaque and improve gum health.

Product Overview

Professional Sonic Cleaning

Experience superior oral care with this rechargeable sonic electric toothbrush, engineered for professional-grade cleaning at home. Featuring a powerful high-frequency motor, it delivers 30,000 to 40,000 vibrations per minute for effective plaque removal and enhanced gum health. The ergonomic, waterproof design ensures convenience and durability for daily use in any bathroom setting.
