

Rechargeable Wall-Mounted Emergency Lantern

This rechargeable lantern uses 2x10W fluorescent tubes. It can be wall-mounted and has AC/DC operation with automatic light-up during power failure.

Product Overview

Reliable Emergency Lighting

This wall-mounted emergency lantern is designed to provide critical illumination during power outages. It features versatile dual-tube operation and supports both AC and DC power modes for maximum flexibility. The unit automatically activates upon detecting a power failure, ensuring safety and visibility in professional or commercial environments.
