

Rectangular LED Backlit Bathroom Mirror

This rectangular LED bathroom mirror provides bright and energy-efficient illumination. It features a sleek, modern, frameless design and touch-sensitive controls for adjusting brightness and color temperature.

Product Overview

Modern Minimalist Illumination

This rectangular LED backlit mirror combines sleek, frameless aesthetics with practical, energy-efficient lighting. Designed for contemporary spaces, its slim profile sits flush against the wall, while the dual-sided glow provides soft, ambient illumination. Built with durable, corrosion-resistant materials and smart touch-sensor controls, it offers a perfect blend of style and functional utility for modern bathrooms.
