

Red Wheel Tractor for Farming

This red wheel tractor is a piece of agricultural machinery designed for various farming tasks. It is equipped with a diesel engine, providing the power needed for plowing, tilling, and towing agricultural implements.

Product Overview

Versatile Agricultural Power

This red wheel tractor is engineered for efficiency across small to medium-sized farming operations. It features a robust diesel engine and rugged tires, providing the necessary torque and traction for demanding tasks like plowing, tilling, and towing. Designed with operator comfort in mind, the included canopy offers protection while the compact chassis ensures superior maneuverability in tight field conditions.
