

Reinforced Abrasive Cut-Off Wheel

115x1.6x22 mm

This reinforced cut-off wheel is designed for cutting steel. It adheres to EN 12413 standards and has dimensions of 115x1.6x22 mm with a maximum operating speed of 13300 RPM.

Product Overview

High-Performance Cutting Solution

This reinforced abrasive cut-off wheel is engineered for precision cutting of steel and stainless steel materials. Designed for safety and durability, it features an A46R-BF grit specification and complies with rigorous EN 12413 safety standards. With a maximum operating speed of 13,300 RPM, this wheel offers reliable performance for demanding industrial and workshop applications.

Technical Specifications

Maximum Operating Speed

13300 RPM
Max RPM

80 m/s
Max Speed

Dimensions	115 x 1.6 x 22 mm (4 1/2" x 1/16" x 7/8")
Grit Specification	A46R-BF
Wheel Type	Type 41 (Flat)

Compliance & Quality

Safety Features

Reinforced • EN 12413 Compliant

Certifications	EN 12413, ISO 9002
