

# Remote Controlled Oscillating Pedestal Fan with Digital Display

This remote controlled pedestal fan provides efficient and adjustable cooling for any room. It features multiple speed settings, an adjustable height, and a wide oscillation range for optimal air circulation.

## Overview

### Professional Cooling Solution

This remote-controlled oscillating pedestal fan is designed to provide efficient and adjustable cooling for professional and commercial environments. It features a digital display for precise control and a quiet, energy-efficient motor that minimizes power consumption. With versatile wind modes and a programmable 12-hour timer, it offers a high degree of comfort and operational convenience.

## Performance

Wind Modes	Ordinary Wind, Natural Wind, Sleeping Wind
Speed Levels	6
Programmable Timer	12 hours

## Features

### Control Interface

- Remote Control
- Digital Display

Oscillation	Yes
