

Remote Controlled Pedestal Fan

This standing electric fan includes a remote control for convenient operation. The fan features a circular base, a telescoping pole, and a fan head enclosed in a wire cage.

Product Overview

Professional Remote-Controlled Pedestal Fan

This high-performance pedestal fan is designed to deliver consistent, powerful airflow in professional or residential environments. Featuring a stable, weighted circular base and a height-adjustable telescoping pole, it offers versatile placement options for optimal air circulation. The included remote control allows for convenient adjustment, while the safety-rated wire cage ensures reliable operation.

Design and Build

Construction Details

- Telescoping pole for adjustable height
