

Retractable LED Work Light with Magnetic Base

This work light features a retractable design for focused or diffused illumination. It incorporates a high-intensity LED, rechargeable battery via USB, and a magnetic base for hands-free operation.

Overview

Professional Retractable LED Work Light

This versatile LED work light features a unique retractable design for adaptable illumination in any workspace. Equipped with both high-intensity COB and XPG LED sources, it provides dual-mode functionality for focused beam or wide-area lighting. The integrated magnetic base and rear hook allow for convenient, hands-free operation on metal surfaces or overhead mounting.
