

Retractable Multi-Tip Car Charger

This car charger features a retractable cable for convenient storage and prevents tangling. It is designed with multiple adapter tips for compatibility with various electronic devices.

Product Overview

Versatile Charging Solution

This retractable multi-tip car charger is designed for high-efficiency charging on the go. Featuring an adjustable wire length for convenient storage and portability, it is compatible with a wide range of mobile devices including those using nickel-cadmium, nickel-hydrogen, and lithium battery technologies. Its novel and graceful design makes it a practical accessory for any vehicle.

Technical Specifications

Input Voltage

12 V

DC Input

24 V

DC Input

Compatible Battery Types

Nickel Cadmium, Nickel Hydrogen, Lithium

Design & Convenience

Cable Features

Retractable • Adjustable Length

Charging Capabilities

- Quick speed charging
- High efficiency output
- Multi-tip connectivity
