

Retractable Wheel Skate Shoes

These skate shoes feature retractable wheels for seamless transitions between walking and skating. They are designed with durable outer material, a comfortable inner lining, and a secure lacing system.

Product Overview

Versatile Urban Mobility

These innovative retractable wheel skate shoes offer a seamless transition between walking and skating, making them perfect for urban commuting and recreational use. Built with a durable outer material and a comfortable inner lining, they prioritize both protection and comfort for the wearer. The high-quality polyurethane wheels ensure smooth performance, while the secure lacing system provides the stability needed for reliable daily operation.

Technical Specifications

Wheel Material	Polyurethane
