Overview

Classic styling paired with modern high-performance LED lighting.

Retro Elegance Meets Modern Performance

This retro-styled scooter combines classic European aesthetics with high-performance engineering to deliver a sophisticated urban commuting solution. The vehicle features a full LED lighting system for superior visibility and a high-efficiency engine designed for smooth, reliable operation. Packed with practical technology like a 5V2A USB quick-charger, an anti-theft central locking system, and a robust CBS braking system, it offers a perfect balance of style, safety, and everyday convenience.

Key Features

Nimble handling and compact design optimized for city streets.

Integrated Features

- Full LED lighting system
- High-performance CBS braking system
- 5V2A Quick-charging USB interface
- Anti-theft central control lock
- Mechanical and digital combination instrument cluster
- Ergonomic high-low drop seat design
