

Retro Style Kitchen Blender with Blending Bottle

This retro-style blender combines classic aesthetics with modern functionality. It features a durable construction, glass blending jar, stainless steel blades, and includes a separate blending bottle for on-the-go convenience.

Overview

Retro Style Kitchen Blender

This retro-style blender blends classic aesthetic charm with modern high-performance features. Powered by a robust 300W pure copper motor, it reaches speeds of up to 23,000 rpm for efficient smoothie and food preparation. With built-in safety features like overheat protection and an interlock system, it offers a reliable and stylish solution for professional or home kitchens.
