## Technical Specifications

### Longer Battery Life

500 readings per day, it can work at least 60 days.

3.7V/ 880mAh

Battery Capacity : 3.7V/ 880mAh

1150mAh

Long-lasting battery designed for high-frequency daily use.

### Battery Performance

- Capacity: 3.7V/880mAh
- Usage: 500 readings per day
- Standby: Up to 60 days
- Fast Charge: 2 hours for 30 days of patrol

### Data Transfer

Drive-free magnetic USB connection with 30% faster upload speeds

## User Experience

### Simple Appearance, Practical Design

#### Various States, Clearly Visible

Three-color LED with vibration prompts.  
Reading prompt,  
low battery prompt,  
charging prompt

Intuitive feedback system with LED indicators and vibration prompts for status updates.

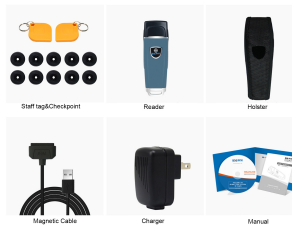

### User Feedback

Colorful LED Indicator, Vibration Prompts, Reading State, Low Battery Alert, Charging Status

## Package Contents

### Perfect Equipment

One by each kind to make you satisfied

The standard equipment set includes everything needed for a fully functional deployment.

### Standard Equipment Set

Item	Description
Reader	Main handheld device
Tags	Staff tags and checkpoints
Accessories	Holster, magnetic cable, charger
Documentation	User manual
