

Riot Control Suit

This full body riot control suit is designed for law enforcement and security personnel. It provides comprehensive protection against blunt force trauma, projectiles, and edged weapons.

Product Overview

Professional Riot Control Protection

This full-body riot control suit is engineered for law enforcement and high-risk security personnel. It offers comprehensive defense against blunt force trauma, projectiles, and edged weapons while maintaining user mobility through segmented armor plating. Designed for durability and flexibility, this gear is essential for crowd control and volatile security operations.

Protection Capabilities

Protection Against

Blunt Force Trauma, Projectiles, Edged Weapons
