

Roadside Emergency Warning Triangle

This warning triangle is an essential safety device for alerting drivers to roadside emergencies. The reflective red material provides high visibility, and its stable base ensures it remains upright.

Product Overview

Roadside Emergency Warning Triangle

The YJ-5F warning triangle is an essential safety device designed to provide high visibility to alert approaching drivers during roadside emergencies. Featuring highly reflective red material, it ensures maximum safety even in low-light and nighttime conditions. Its folding design allows for rapid deployment and compact storage within vehicle trunks.
