

Rotary Vegetation Mower

This heavy-duty rotary mower is designed for cutting and mulching vegetation. It features a robust steel deck, shielded driveline, and chain guards for enhanced safety.

Product Overview

Heavy-Duty Rotary Vegetation Mower

This robust rotary mower is engineered for demanding vegetation management tasks, including cutting and mulching in pastures, fields, and roadside verges. It features a durable steel deck construction and a shielded driveline to ensure long-term reliability and efficient performance. Designed for safety and ease of use, it integrates a standard three-point hitch for seamless attachment to tractors.

Technical Specifications

Attachment System	Three-point hitch
Safety Features	Shielded driveline, Chain guards, Steel deck

Applications

Ideal Use Cases

- Pasture maintenance
- Field clearing
- Roadside verge mowing
- Vegetation mulching
