

Rotating Halogen Warning Light

This rotating warning light provides a bright and attention-grabbing signal. It features a durable PC lens and ABS base, suitable for use in 12V and 24V DC systems.

Overview

High-Visibility Rotating Warning Light

This rotating warning light is engineered for professional use on emergency vehicles and construction equipment, providing a high-intensity signal to ensure safety in hazardous conditions. Featuring a durable polycarbonate lens and a robust ABS base, it is built to withstand demanding environments while offering versatile installation options. With IP65 waterproofing and dual-voltage compatibility, this light delivers reliable performance across a wide range of industrial and automotive applications.

Technical Specifications

A diverse selection of industrial-grade warning beacons designed for high visibility.

Light Source

1 qty

H1 Halogen Bulb

Waterproof Rating

IP65

Working Voltage

DC 12/24V

Lighting Functions

Three function flashing
