

Satellite Dish Antenna

Satellite dish antenna designed for receiving satellite signals. It features a parabolic reflector for signal focusing, a mounting bracket for secure installation, and an LNB (Low Noise Block) holder.

Product Overview

High-Performance Satellite Reception

This satellite dish antenna is engineered for reliable signal reception in diverse environments. Featuring a precise parabolic reflector design, it ensures optimal signal focusing for both satellite TV and data communication needs. Built with durable, weather-resistant materials, it provides a stable and long-lasting solution for outdoor installations.

Technical Specifications

Key Components

- Parabolic reflector for signal focusing
- Secure mounting bracket
- LNB (Low Noise Block) holder

Environmental Suitability

Outdoor Rated • Weather Resistant

Primary Applications

Satellite TV, Data Communication
