

Saw Set with Pruning, Tenon Saws and Blades

This set includes a pruning saw with a curved blade for cutting branches and a tenon saw with a straight blade for woodworking. Replacement blades ensure continued performance for both types of saws.

Product Overview

Professional Saw Set

This comprehensive saw set is designed for versatile cutting tasks, featuring both pruning and tenon saws. The pruning saw is optimized for branches and limbs with its coarse-toothed, curved blade, while the tenon saw offers precision for detailed woodworking. Included replacement blades ensure that your tools remain sharp and effective for long-term use.
