

Self-Locking Nylon Cable Tie

Nylon cable ties are designed for bundling and securing wires and cables. These durable ties feature a self-locking mechanism for quick installation.

ADDITIONAL IMAGES

Product Overview

Durable nylon construction provides reliable support for various wiring applications.

Self-Locking Nylon Cable Ties

These high-quality self-locking nylon cable ties are designed for efficient wire and cable management in diverse environments. Constructed from durable Nylon 66, they offer superior heat resistance, chemical protection, and insulation properties. The integrated self-locking mechanism ensures a quick, secure, and reliable fastening solution, making them ideal for electrical, automotive, and general industrial applications.

Material & Performance

Flammability Rating

94V-2

Material

Nylon 66

Operating Temperature

-35 to 85

Key Features

Fire Resisting, Acid Resistant, Erosion Control, Insulating, Anti-Aging

Customization

Available Colors

- Natural (White)
- UV Black
- Other colors available upon request

Technical Specifications

Dimensions & Strength

Item No.	Length (mm)	Width (mm)	Tensile Strength (KGS)
2.5x60	60	2.5	8
2.5x80	80	2.5	8
2.5x100	100	2.5	8
2.5x120	120	2.5	8
2.5x150	150	2.5	8
2.5x160	160	2.5	8
2.5x200	200	2.5	8
3.5x150	150	3.5	8
