

Self-Priming Centrifugal Water Pump

This self-priming centrifugal water pump is designed for efficient liquid transfer. It features a robust cast iron construction ensuring durability and reliable performance.

Product Overview

High-Efficiency Liquid Transfer Solution

This self-priming centrifugal water pump is engineered for demanding industrial, agricultural, and construction environments. Constructed from robust cast iron, it features a heavy-duty impeller and wear-resistant components to ensure long service life and reliable high flow rates. The design prioritizes ease of maintenance, allowing for efficient servicing in professional applications.

Technical Specifications

Applications

- Agricultural Irrigation
- Construction Dewatering
- Industrial Liquid Transfer

Body Material	Cast Iron
Key Features	Self-Priming, High Flow Rate, Solids Handling, Wear-Resistant
