

Self-Priming Centrifugal Water Pump

This self-priming centrifugal pump is designed for water transfer, boosting, and irrigation applications. It features a robust motor that ensures reliable performance and durable construction for an extended lifespan.

Product Overview

Reliable Self-Priming Solution

This self-priming centrifugal pump is engineered for consistent performance in water transfer, pressure boosting, and irrigation tasks. Its robust motor and durable construction ensure a long service life, making it a reliable choice for professional environments. Designed for clean water and non-corrosive liquids, it provides an efficient solution for various hydraulic requirements.

Suitable Applications

Water Transfer, Boosting, Irrigation

Technical Specifications

Compatible Liquids

- Clean water
- Non-corrosive liquids

Key Features

Performance Highlights

1 Self-priming

Operation Type

1 Extended Life

Durability
